

## OUR ENVIRONMENTAL POLICY

Our company, operating in the field of **“Industrial Automation Systems and Special Machine Manufacturing,”** has established its policy in line with the following principles to maximize the environmental management system in accordance with the purpose and context of the organization:

- Identifying, controlling, and reducing the environmental impacts arising or that may arise from our production activities,
- Complying with all applicable legal and other environmental requirements,
- Ensuring pollution prevention by increasing waste management awareness in all departments,
- Using natural resources efficiently,
- Educating all our employees on environmental issues to promote environmental awareness,
- Continuously improving the environmental management system to enhance environmental performance,

This has been adopted as the Environmental Policy.

**General Manager**
